

# ArcControl 1024

Anolis ArcControl 1024™ is a feature-rich, fully programmable DMX controller, designed to offer comprehensive and intuitive control of all Anolis fittings as well as third party DMX-controlled luminaires. It is ideal for the widest possible range of applications including commercial and residential installations - restaurants, bars, hotels, modern interiors, lightscapes, retail outlets, point-of-sales, illuminated signs and exhibition stands. Anolis ArcControl 1024™ offers a stand alone system and is wall-mounted. It requires no additional equipment to control DMX fittings and fits neatly into a 47 mm deep back box. Surface mount and frame mount options are also available. Anolis ArcControl 1024™ includes a comprehensive library of all Anolis luminaires and other effects for easy installation and programming. The LCD display and scroll-wheel combined with the real time astronomical clock allows for more complex sequences, timed events and colours to be added without requiring the use of a computer.

## TECHNICAL SPECIFICATIONS:

### ELECTRICAL

Input Voltage 15V DC 300mA  
 Contact Inputs 3 Volt-Free  
 Audio Inputs Line-Level mono for beat trigger  
 Clock Real time clock + 6 month battery back-up

### PHYSICAL

Width x Height x Depth Inches: 3.17 x 3.17 x 0.73  
 mm: 80.5 x 80.5 x 18.4  
 Weight lbs: N/A  
 kg: N/A

### SPECIFICATION

LCD Screen 128 x 64 Pixel, mono with RGB Backlite  
 Standard Facia Stainless Steel  
 Number of Universes 2 ( 512 Channels Each)  
 DMX Standard DMX 1990 A  
 DMX Refresh Rate Configurable, 36Hz Max

### NETWORKING

Ethernet 10/100 MHz - Auto Uplink Detection  
 Built in web server  
 Telnet command server  
 3 independent 0-10V Outputs, 50mA

Analogue Channels

### CERTIFICATION

Listings CE, RoHS
